Field Day: Paul Harrington III, KB4ENQ
Web Site: Jerry Mueller, KC4WZO
Net Control: Paul Harrington III, KB4ENQ
Repeater: Steve McFadden, KA4TJD
News Letter: Paul Harrington III, KB4ENQ
Fund Raising: Todd Rose, KE4YAH
Adopt-a-Highway: Paul Harrington III, KB4ENQ

The Woodford County Amateur Radio Club meets on the first Wednesday of each month at 7:00 p.m., at the Versailles Fire Station #2 on Big Sink Pike (38°3'34" N 84°43'11" W). Anyone interested in Amateur Radio is cordially invited.

The Club holds an ARES practice net Thursday evenings at 8:00 p.m. Nets are held on the 145.330 repeater.

The Woodford County Amateur Radio Club Home Page is located on the internet at <http://www.ky4wc.org>. The Club receives e-mail at ky4wc@ky4wc.org. E-mail may be sent to the membership by sending a message to maillist@ky4wc.org.

Technician Classes in Anderson County

Starting the first Tuesday of June, (June 1) we will begin Amateur Technician Classes at the Lawrenceburg United Methodist Church at the corner of Bypass 127 and Carlton Dr. Classes will be at 7:00 each Tuesday with the EXCEPTION of the second Tuesday of each month, which is meeting night for the Anderson Radio Club. Classes will usually run 1.5 to 2 hours and we're figuring ten weeks worth of classes. All classes will cover the material in the ARRL Technician Study Guide. Classes are free to everyone and the only cost involved will be the cost of the book which is between \$20.00 and \$25.00.

ADAMASat Graphical User Interface

Kentucky Space has released to the HAM community the ADAMASat FREE GUI, a free 32-bit Windows binary for amateur radio operators in the Eastern United States who are interested in tracking ADAMASat on its launch day. The GUI is a standalone application and upon opening it on his/her computer, the HAM will be greeted with a popup window which explains the steps required to track the payload. All that is needed is a Windows machine, a radio and TNC which can receive on 144.390 MHz (1200 baud APRS) using SIMPLEXDIRECT with no digipeaters, a serial or USB cable, and a suitable location. The GUI parses the APRS packets as they are received, graphing temperatures on-board the payload and reporting status of the mission in real-time. It also includes instructions on e-mailing the packet log to Kentucky Space to aid in post-processing, and a built-in aggregator for the official ADAMASat Twitter RSS feed. Disclaimer: Kentucky Space provides the GUI "as is" without warranties of any kind, and shall not incur any liability for any damages connected to the use of the GUI.

For more information please visit the SOCEM page at: <http://ssl.engr.uky.edu/suborbital/socem>

Also see: <http://ssl.engr.uky.edu/cubelab>

Thanks to Brian Carter, KI4TLW, and Steve McFadden, KA4TJD, for these news items.

Minutes of the March, 3rd Meeting

The March meeting of the Woodford County Amateur Radio Club was called to order at 7:05 p.m. by the Club President, Mike Brannock, KG4IES.

Minutes of the Last Meeting: Todd Rose, KE4YAH, seconded a motion made by Paul Harrington III, KB4ENQ, that the minutes be accepted, with an adjustment. The motion carried.

Treasurer's Report: Steve McFadden, KA4TJD, reported no activity for the previous month resulting in a closing balance of \$\$\$\$.\$\$. No motion on record.

Adopt-a-Highway: Discussion tabled until next month, due to schedule conflicts.

Old Business: Steve McFadden, KA4TJD, reported that he has the forms to apply for an ISS contact. He will contact the school and continue with plans. He indicated that ISS contacts are usually 3 to 5 years after application.

Drew Chandler, KI4TFI, passed out access badges for the meeting room to the Club officers.

Paul Harrington III, KB4ENQ, agreed to hunt down a new 2 meter antenna for the fire station.

Todd Rose, KE4YAH, seconded a motion made by Steve McFadden, KA4TJD, that the meeting be adjourned. The motion carried at 8:06 p.m.

Forum Schedule Announced for 2010 Dayton Hamvention

One of the many highlights at Dayton Hamvention® -- sponsored by the Dayton Amateur Radio Association (DARA) -- is the myriad of educational and fun forums that take place the entire weekend at Hara Arena. DARA has coordinated 43 unique programs that encompass nearly 80 hours of programs and activities for the thousands of people expected to attend these programs. Hamvention, the largest event of its kind, will be May 14-16 at Hara Arena in Dayton, Ohio. Please keep in mind that the schedule may change before Hamvention.

Friday, May 14

- 9:15-11:15 -- TAPR Digital Forum (Room 1)
- 9:15-10:45 -- ARRL, Public Relations Forum (Room 2)
- 9:15-10:15 -- HAARP (Room 3)
- 9:15-10:15 -- QRP: Why Should I Try It? (Room 5)
- 10:30-11:30 -- Antennas -- The Final Frontier (Room 5)
- 10:30-12 -- Teachers Workshop (Room 3)
- 11-12 -- Fox Hunting (Room 2)
- 11:30-12:30 -- APRS Forum (Room 1)
- 11:45-12:45 -- Kit Building (Room 5)
- 12:15-1:45 -- Ham Radio and the Law (Room 3)
- 12:15-2:15 -- BalloonSat (Room 2)
- 12:45-2:15 -- D-STAR Forum (Room 1)
- 1-2:15 -- YLRL Forum (Room 5)
- 2-3:30 -- Add-on DSP Speakers (Live Demos) (Room 3)
- 2:30-3:45-- ARRL Lab, Powerline Noise (Room 2)
- 2:30-5 -- Antenna Forum (Room 1)
- 2:30-5 -- Software Defined Radio (Room 5)
- 3:45-5 -- Techniques of the Best Operators (Room 3)

From the ARRL Newsletter, continued:

4-5 -- County Hunting Forum (Room 2)

Saturday, May 15

9:15-10:15 -- SATERN Forum (Room 2)
 9:15-10:15 -- FCC, Emergency Communications (Room 3)
 9:15-11:00 -- VHF/UHF/Microwave Forum (Room 5)
 9:15-12:15 -- Youth Forum (Room 1)
 10:30-11:30 -- Drake Forum (Room 2)
 10:30-11:45 -- ARRL Lab, Antenna Modeling and Propagation Software (Room 3)
 11:45-2 -- Newline Town Hall Meeting (Room 2)
 12-1 -- RTTY Contesting Forum (Room 3)
 12:30-2:30 -- Contesting Forum (Room 1)
 1:15-2:15 -- ARRL Member Forum (Room 3)
 1:45-3 -- SSTV Forum (Room 5)
 2:15-3:15 -- Ham Radio Workbenches (Room 2)
 2:30-3:30 -- ARES® Forum (Room 3)
 2:45-5 -- DX Forum (Room 1)
 3:15-5 -- Combined MARS Forum (Room 5)
 3:30-5 -- ATV Forum (Room 2)
 3:45-5 -- Collins Forum (Room 3)

Sunday, May 16

9:15-10:15 -- ARRL, Resources for Radio Clubs (Room 2)
 9:15-10:15 -- Red Cross Forum (Room 1)
 9:15-10:15 -- Hamming in Hong Kong (Room 3)
 9:30-11:15 -- Bicycle Mobile Forum (Room 5)
 10:30-11:30 -- Demo of a Synchronous Rotary 500 W Spark Gap Transmitter (Room 1)
 10:30-11:30 -- QCWA Forum (Room 2)
 10:30-11:30 -- An Introduction to Arduino for Amateur Radio Applications (Room 3)

For more information on forums at the 2010 Dayton Hamvention, please visit the Dayton Hamvention Web site.

DX Activities Abound at ARRL EXPO at the Dayton Hamvention®

ARRL Membership and Volunteer Programs Manager Dave Patton, NN1N, reports that plans for a plethora of DX activities at the ARRL EXPO -- part of the 2010 Dayton Hamvention -- are wrapping up. "We are excited about the activities that will be taking place," he said. "Visitors to the EXPO will see a lot of activities relating to DX, including DXCC card checking, a chance to drop off QSL cards for the ARRL Outgoing QSL bureau and even an expanded International Amateur Radio Union (IARU) area." The Dayton Hamvention will take place May 14-16 at Hara Arena, located near Dayton, Ohio.

An International Flavor

The IARU area, led by IARU President Tim

Ellam, VE6SH, will feature each of the three IARU Regions. The Deutscher Amateur Radio Club (DARC) will represent Region 1, the ARRL will represent Region 2 and the Japan Amateur Radio League (JARL) will represent Region 3. The ARRL will sponsor a RUFZ CW copying competition throughout the event and JARL will be on hand to check applications for the IARU's Worked All Continent (WAC) and 5-Band WAC awards. According to Patton, they will check QSL cards and issue the award certificates on the spot.

JARL representatives will also check applications for certain JARL awards (AJD, WAJA, JCC, JCG, ADXA and ADXA-Half) and issue them at the convention. JARL staff members Masa Ebisawa, JA1DM, and Hiro Tamama, JA1SLS, will check applications for other JARL awards at the JARL corner; certificates for these awards will be mailed from JARL headquarters. Ebisawa and Tamama will be glad to answer questions about JARL activities, as well as the reciprocal licensing procedures.

Applicants for JARL awards do not need to have the QSL cards present; a list showing the call signs of stations worked, date, band and mode (or other data required by each award) of the contacts is sufficient. A statement making an oath that the QSL cards of the contacts listed are in the possession and that the items are correctly listed should be attached to the application. Applicants may use a DXCC Record Sheet for their QSL card list. The JARL award fee is \$16. Check out the JARL Web site for more information about JARL awards.

On Friday and Saturday of Hamvention, Herb Aeby, HB9BOU -- the QSL Manager for 4U1UN, the Amateur Radio Station at the United Nations -- will be in the DXCC area of ARRL EXPO issuing QSL cards for both 4U1UN and 4U1ITU, the Amateur Radio station at the International Telecommunication Union (QSLs for the special 4U1ITU operations 4U1WRC, 4U0ITU and 4U9ITU will not be available). According to Patton, you only need to bring a log extract listing your contacts with the station(s). QSOs with 4U1UN will be confirmed if it is in their electronic log; this log covers the period 1993 to the present. Manfred Oberhofer, HB9ACA, and Bertrand Bladt, HB9SLO, will also be on hand to assist.

Homegrown Tastes

ARRL staff and DXCC Card Checkers will offer full DXCC card checking and award applications as always, and will also be able to check applications and QSLs for the Worked All States (WAS) and the VHF/UHF Century Club (VUCC) awards.

Visitors to the ARRL EXPO will be able to check out the Logbook of the World (LoTW) "Call Sign Lookup." This nifty program will allow anyone to see how many times LoTW users have submitted their call sign to the 222 million QSO log database! ARRL staff will also be able to assist with LoTW signup and problems throughout the weekend. For those who have not yet signed up to use LoTW, bring a copy of your license to show to staff and they will be able to help expedite the sign-up process.

For the first time ever, ARRL members will be able to drop off their QSL cards to be sent through the ARRL Outgoing QSL Bureau. If you have QSLs that you would like to send through the ARRL Outgoing QSL Bureau (your QSLs going to foreign stations --no US-US QSLs please), you can save the shipping cost to ARRL by bringing them to Dayton and the League will transport your cards to the Bureau in Newington.

In order to take advantage of this exciting benefit, all of the standard QSL Bureau rules must be followed: Cards must be sorted by DXCC country; they must go to countries where a bureau exists, and you must be an ARRL member to use the Outgoing QSL Bureau. Patton said that hams utilizing this service do not need to box the cards, but they should be wrapped with rubber bands; ARRL will weigh the cards on-site in the ARRL EXPO area.

The rates are \$5 for the first .5 pounds of cards or portion thereof. Keep in mind that approximately 75 cards weigh .5 pounds. The rates increase to \$10 for one pound, and then \$5 for each additional half-pound. For example, a package containing 1.5 pounds of cards should include the fee of \$15. A package of only 10 cards or fewer costs just \$1.50, 11-20 cards are \$2.50 and 21-30 cards are \$3.75. Members can pay for this service via check, cash or credit card.

...More ARRL at Dayton

In 2010, the ARRL is bringing back one of the most popular events at the 2009 Hamvention: the Project Building Workshops. We will once again offer two affordable projects -- a combination keyer/paddle kit and a 24 hour clock -- that hams (and non-hams, too!) can build under the watchful eyes of ARRL Laboratory Engineer Bob Allison, WB1GCM, and his team of instructors. You will get the chance to handle electronic components, circuit boards and even do a little soldering - and you'll be mentored each step of the way.

"If you have never built a project before,

hope you will stop by," said Allison. "We also want to encourage hams who have not built something in a long time to get back in the saddle. Project building is fun, and it's a great way to build low cost gear and accessories." Unlock your inner do-it-yourselfer at one of 10 time slots: Friday and Saturday at 9:30 AM, 11:30 AM, 1:30 PM and 3:30 PM, and 9 and 11 AM on Sunday. Pre-registration is required; sign up for these fun projects at the Project Building Booth, located inside the ARRL EXPO area.

Whether you're 10 or 110, the EXPO has something just for you. Join young (and young-at-heart) amateurs at the ARRL Youth Lounge. Drop by the ARRL Youth Lounge to meet and socialize with other young hams. Come chat with other hams, listen to music, grab a snack or participate in one of the many activities, such as fox-hunts, scavenger hunts, Morse code fun, a QSL card designing contest, crafts, prizes and more. Whether or not you're licensed, you're welcome to come by and join the fun! If you're looking for other youth during the convention, try calling them on the youth calling frequencies: 145.540 MHz (107.2 Hz CTCSS) primary and 146.430 (233.6 Hz CTCSS) secondary. Not licensed yet? Soon-to-be hams can check-in using FRS channel 1.

ARLB014 FCC Seeks Comments on Newly Proposed Rules for Amateur Radio Operators and Emergency Drills

In March, the FCC released a Notice of Proposed Rulemaking (NPRM) that proposed to amend the Part 97 rules governing the Amateur Radio Service. The new rules would provide that, under certain limited conditions, Amateur Radio operators may transmit messages during emergency and disaster preparedness drills, regardless of whether the operators are employees of entities participating in the drill.

On April 22, a summary of the NPRM was published in the Federal Register and the FCC is seeking comments on it. Comments must be filed on or before May 24, 2010 (30 days after publication in the Federal Register); reply comments must be filed on or before June 7, 2010 (45 days after publication in the Federal Register).

Instructions on how to file comments are listed beginning on page 5 of the NPRM. The NPRM is available on the web in PDF format at, http://hraunfoss.fcc.gov/edocs_public/attachmat/ch/FCC-10-45A1.pdf.
